29 May 2009

FOR THE ATTENTION OF MR C CREW

It is my intention to see the Long Sutton SSE's principles serve as a working model for broader application in the UK , while the design is to demonstrate ways in which its residents, employees and visitors can achieve greater levels of autonomy in terms of energy generation, water, waste management, and food supplies without resort to fossil fuels.

To have CABE recognizing the innovative nature of these proposals and encouraging the development to become a *Case Study* is an outcome to be promoted. I welcome the opportunity to have CABE operating a watching brief of the Long Sutton SSE as it evolves through procurement, construction and occupation.

Yours sincerely

DR J HARRALL RIBA
Chartered Architect

Cc Mr T Bender, CABE
