Date (DD/MM/YYYY): 07/12/2016 (Must be pre-application submission)

Details of the pre-application advice received:

Firstly, it is understood that the area has historically been used as grassed play area. It would therefore need to be demonstrated that its loss would not be unduly harmful and that a similar facility is available for use within the locality. In this respect, it is noted that the site is relatively close to the park. A financial contribution may therefore be requested in this case in accordance with Policy HS11 of the South Holland Local Plan, 2006.
Local Plan Policy HS4 makes provision for residential development on suitable brownfield sites within Spalding and the area centres, including Long Sutton. The site is within Long Sutton Development Boundary but is not technically brownfield. However, the Council does not currently have a five-year supply of deliverable housing sites. Paragraph 49 of the National Planning Policy Framework, 2012 states that relevant policies for the supply of housing should not be considered up-to-date if the local planning authority cannot demonstrate a five-year supply of deliverable housing sites.
Paragraph 49 of the Framework goes on to stress that, in the absence of a five year supply, housing applications should be considered in the context of the presumption in favour of sustainable development. Paragraph 14 also states that there is a presumption in favour of sustainable development and, where the relevant policies are out of date, planning permission should be granted, unless any adverse impacts of doing so would significantly and demonstrably outweigh the benefits, when assessed against the policies in the Framework. Paragraphs 7 and 8 explain that the three mutually dependant dimensions to sustainable development are social, economic and environmental. In this case, it seems likely that the Authority would take the view that the proposed development is sustainable.
In respect of affordable housing, the scheme is below the current threshold. It is therefore likely that such housing would not be required in this instance.
The appearance of the properties appears to be generally acceptable. The parking area should include more landscaping to make it more informal.
In terms of amenity, there should be no material overlooking of neighbouring property. This could be problematic if floor levels have to be raised to address flood risk. It is noted that existing properties to the south are separated by a driveway. However, the rear of plot 4 seems relatively close to the rear of No. 102 London Rd.
The Authority normally only allows a small number of properties off a private drive. This is subject to a refuse area being situated close to a public highway to enable it to be accessed by refuse vehicles.
In terms of highway safety, you are advised to discuss the scheme with Jon Sharpe of the County Highways Authority. His email address is jon.sharpe@lincolnshire.gov.uk.
