For/Against	Support

Dear District Colleague,

I am writing in respect of the above planning application, which is linked to securing sufficient childcare places in South Holland.
Lincolnshire County Council has a statutory duty to ensure an adequate number of childcare places are accessible to families across the county, to enable them to work, train or study. Analysis is undertaken annually by officers of the Local Authority to determine the availability of age-related childcare in each area and identify where any gaps may exist.
Based on the current data we hold, there is a significant need for additional places in the south Holland area and in particular, Lutton.
The Early Years team at Lincolnshire County Council have been working with Mr and Mrs Ludlam to expand her business and are in full support of the expansion.

If you require any further information to support this application, please do not hesitate to contact myself or a member of my team on Tel. 01522 552752 or by email: childcaresufficiency@lincolnshire.gov.uk
