Details of the pre-application advice received:

Advice given by English Heritage through Chris Crew, Planning Officer:- "Please find below our comments following your request for pre-application advice re. proposed developments at Garnsgate Hall (grade II*), and please accept my apologies for the delay in responding.

My understanding is that the following are proposed:

- three dormer windows on the main elevation
- putting back the central chimney stack
- inserting a fireplace in the hall
- providing a cornice for the front elevation
- inserting two rooflights.

We would have no objection in principle to reinstating the chimney stack, for which there is good evidence regarding its location and appearance, or for providing an appropriate fireplace in the hall. We also have no objection in principle to inserting rooflights on the roof slopes which face inwards.

However, we consider that there isn't convincing evidence to support reinstatement of the dormers and cornice. Whilst it is clear that there were previously dormers in the locations proposed, and there are certainly houses of this period with dormers, there is no evidence regarding the appearance of the dormers, or their phasing. Obtaining sufficient evidence, particularly about appearance, is crucial, and any reinstatement would need to be based on sound evidence. Similarly, there is no evidence regarding the appearance and phasing of a cornice on the front elevation (in the absence of evidence to the contrary, the example from Stamford would appear to be overly 'fancy'). As you will be aware, advice on reinstatement, or restoration, and the level of evidence required is given in the Historic Environment Planning Practice Guide, which is still applicable, in section 6 (particularly paragraph 168).

I am aware that our advice regarding the dormers and cornice will be disappointing to your client at this stage but I hope the above advice is useful. Please accept my apologies again for the delay in responding.

Best regards,
David
