

THE MILL TOWER

Roof window

Conservation roof lights

Double panelling

Re-climbed

This architectural drawing shows a building facade with two distinct parts. On the left is a low, single-story wing with a flat roof. It features a large window on the left with multiple vertical panes and a central double door with a semi-circular transom. To the right is a tall, narrow tower with a slightly tapered profile. The tower has three rectangular windows: two small ones near the top and one larger one near the base, aligned with the door of the wing.

THE MILL TOWER

LOUNGE

WC

UTILITY

ENTRANCE HALL

KITCHEN-DINER

CONSERVATORY
(To be demolished)

A hand-drawn floor plan of a house, oriented with the entrance at the top. The plan includes the following rooms and features:

- Entrance Hall:** Located at the top center, featuring a large circular area labeled "THE MILL TOWER LOUNGE" and a "Roof Light".
- WC:** Located on the left side, containing a toilet and a sink.
- Utility:** Located next to the WC, containing a washing machine and a sink.
- Living Area:** A large open space on the right side, containing a sofa, a coffee table, and a "Roof Light".
- Dining Area:** Located in the center, containing a dining table and chairs, with a "Roof Light" above it.
- Kitchen:** Located at the bottom, containing a sink, a stove, and a "Wood burner".
- Conservatory:** Located on the left side, containing a "Roof window" and "Bifold doors" leading to the living area.
- Bedroom:** Located at the bottom left, containing a bed and a "Roof Light".
- Dimensions:** The plan includes several dimensions: "2765" for the living area, "2515" for the conservatory, and "3100" for the bedroom.
- Other Features:** The plan also shows a "Roof window" in the conservatory, a "Roof Light" in the living area, and a "Wood burner" in the kitchen.
