I have reviewed the Ground Engineering Desk Study report ref C15356 dated May 2021 and agree with the findings. I therefore recommend discharge of part i of condition 6 of H13-0401-20 with parts ii-iv remaining outstanding.

I have checked our GIS system, and we have records on landfills to the rear of the fox and hounds, and on Red Cow Drove, so think it is most likely that the landfill identified on site has been wrongly positioned. I do feel that the report recommendations for site investigation and gas monitoring are appropriate to give confidence.
