THE GRANARY, MOULTON MILL

CHANGE OF USE TO OFFICE ACCOMMODATION

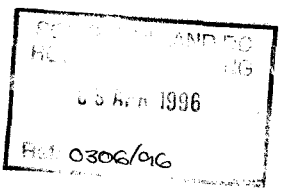

Adjoining the Mill, this building is of little architectural merit in fabric terms but nonetheless is part of the established setting of the Mill. The Granary is of common brick and part render under a corrugated roof. Having been used by definition as a storage facility the building is not essential to the future operation of the Mill for working demonstrations etc. The building must be utilised to avoid falling into disrepair and it is therefore considered that the accommodation provided is suited to office usage.

Independent access will be required to the Granary and this is proposed by means of traditional timber external staircase with easy steps and intermediate landing. The only other physical change proposed under the application is to obscure glaze the two existing windows to the North East elevation. This will safeguard the privacy to the rear garden of Mulberry House.

At such time as internal alterations such as circulation stair, WC provision etc are established these details will, of course, be the subject of relevant applications to the Local Authority.

Once Planning Permission has been obtained a Management Company will be formed. This company will be responsible for the upkeep of the building, arranging suitable letting of office space. Income from rent will be re-invested in the building with the aim to eventually enhance its appearance e.g. re-instate a slate roof. Parking provision for the offices is secured by retained ownership as indicated on the site layout.
