Thanks for consulting us on this application,
This section commented on application H13-0594-16 previously in June 2016 and recommended: "On site of outbuildings which do not appear on the 1905/3 map and are in quite an advanced state of delapidation. No archaeological input required."
Having reviewed the application documents and the available updated Historic Environment information for this application, the proposal is still unlikely to have an impact on significant archaeological remains. As a result, I reiterate the previous recommendation: no archaeological input is necessary for this application.
