Good Afternoon Karen,

Please find attached (as discussed in our telephone conversation) a block plan of the property and a picture of the trellis we are looking at for the existing fence.

The new fence will be 6.1mt in length and will consist of 4 slotted concrete posts 152mm square and 3 wooden tongue & groove fence panels 1.83mt High x 1.83mt long ,with 2 concrete kick boards at the bottom of each panel , 1x152mm plus 1x305mm.The fence will be 2.317 meters high , off which 50mm will be sunk into the ground, making the above ground fence hight 2.25 meters high. The new fence will be sited 5.49 meters from the right hand boundary fence of our property as you look at it from the road.

The Trellis will be fitted to part of the existing back fence and will consist off 5 x pre made wooden trellis panels 1800mm wide x450mm high with 6 101mm wooden posts in between, and will go to a length of 9.75 mts.

I understand that this planning has to go to the parish council, could you make a note that Mr Carl Wright who is on the council is the owner of the land at the back of us and should declare a conflict of interest .

I hope this meets your requirements as we need to get this in motion as soon as possible.

Regards

Wendy Britton.

Good afternoon Karen,

Hope you got my email ect that I sent to you yesterday ok,just relised that I forgot to put in that the exisiting back fence is 2 meters in height and with the new trellis it will increase to 2.45mt.

Regards

Wendy Britton
