

Architectural section drawing of a building facade. The drawing shows a large window on the left and a door on the right. The window is labeled "former openings" with arrows pointing to two small, arched openings. The door is labeled "new door" with an arrow pointing to it.

A close-up photograph of a brick wall. A small, white-framed window is visible on the left side. A dark, irregular object, possibly a piece of debris or a small structure, is hanging from the bottom edge of the wall. A black arrow points to the right, indicating the direction of the wind tunnel flow.

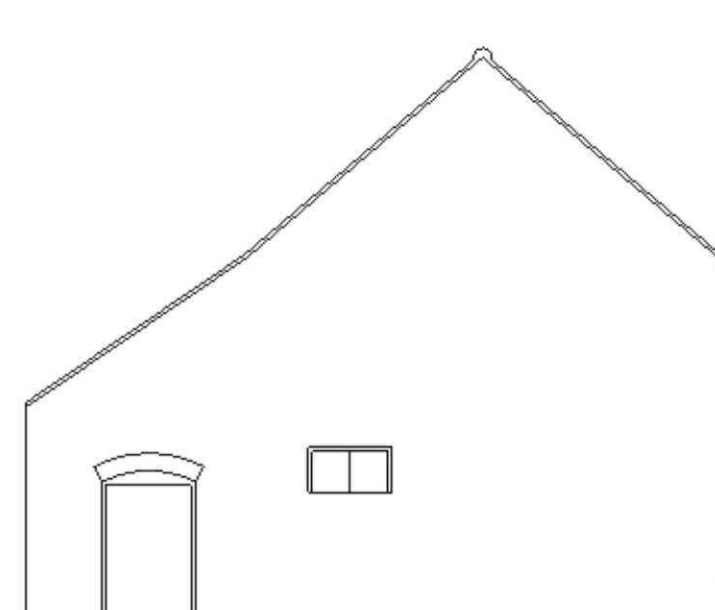

existing render

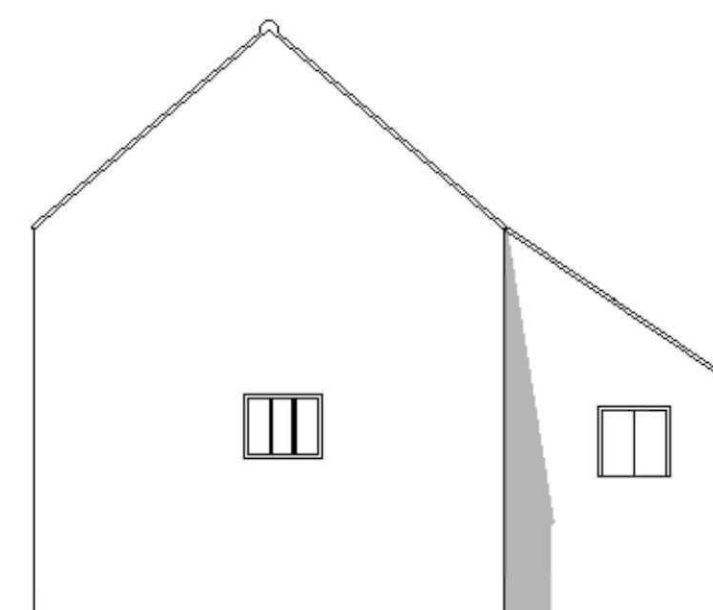

A photograph of a traditional brick house with a tiled roof, showing signs of decay and overgrowth. The house has a steep, gabled roof covered in reddish-brown tiles. The brickwork is weathered and partially covered in ivy. A dark, rectangular opening, possibly a doorway or a large window, is visible in the center. To the right, there is a smaller, more dilapidated structure made of wood or corrugated metal. The foreground is overgrown with grass and weeds, and a fallen log or branch lies on the ground. The background shows bare trees and a cloudy sky.

A close-up photograph of a brick wall. Above the wall is a tiled roof with dark, curved tiles. A black arrow points from the top right corner towards a specific area on the brick wall, which appears to be a small, dark, irregular mark or hole.

A photograph of a traditional brick building with a tiled roof, identified as the 'Old Rectory'. The building has a steeply pitched roof with dark tiles. The walls are made of red brick, with some areas appearing weathered or overgrown with ivy. There are several windows, some of which are boarded up or have white frames. A small, dark, rectangular object, possibly a door or a small window, is visible on the lower left. In the foreground, there is a large, dark blue, cylindrical object, likely a water tank or a large barrel. The background shows some trees and a clear sky.
