Proposal	Residential development - erection of bungalow and garage block

---

Name	J Reith
Address	Environmental Health Technician Safety and Environment
Date Submitted	15-07-16
For/Against	Comments

The design and access statement states that the land was formally part of the M & G N Joint Railway. So I can consider whether a contaminated land condition is required can the application please provide further information on the use of the land during this time as railways are associated with potential contamination.
