This section has commented on a previously approved application for residential development on this site. The proposed development is situated directly behind and within the setting of the Moulton Seas End War Memorial, which is a Grade II Listed asset.
This section raised concerns regarding the impact on the setting of the listed war memorial and the local authority will want to satisfy itself that the new proposals do not significantly erode the communal value of the listed asset as a focus of public remembrance. In this respect I would defer to the advice offered by the Local Planning Authority's Conservation Officer as to the appropriateness of the development.
There is no archaeological impact associated with the listed asset.
