KEY:

Tree Nos.:	T1	Tree Canopies:			

Proposed works:
T1 - Sweet Chestnut, current height, 17m, several major stems from the scaffold have been lost due to recent storms. the tree is in poor form and is likely to drop more limbs in the near future.

We intend to pollard the tree, at approx. 7m, retaining the twin stemmed habit, with finished height of each stem being 7m.
