The proposed development will be required to be licenced and as such must adhere to the Model Conditions for Caravan Sites 2008 England : Caravan Sites and Control of Development Act 1960 Section 5, concerning roadways, lighting, footpaths and fire protection provision etc.

It is also noted that there is no proposed amenity block on site (as it normal for such developments) eg Laundry provision.

I would also remind the owners that if they propose to accommodate 5 or more persons in two or more households in the houses on site they will need to apply to this authority for a licence in respect of this accommodation.
