I have reviewed the validation report by Lucion Ground Engineering Limited Ref: 124190 for plots 1-27, 53-55 & 58, sample photographs, installation completion certificates- plots 9-27 and phase 1 gas membrane checklist sign offs- plots 1-8, 53-55 & 58. I am satisfied with the findings of these reports and correct remediation has been undertaken. I would ask that condition 13 is fully discharged.
