groups);
the admission limit for the age group in 1990/91 as published by the LEA;
the figure produced by applying a formula devised by the Department for Education to the school's accommodation;
the number of pupils to be admitted as shown in any recent proposals which have been partly or fully implemented by May 1, 1991.

Section 27(8) of the 1988 Education Reform provides that:
"the authority responsible for determining the arrangements for the admission of pupils to any maintained school shall keep under review any standard numbers applying under this section to the school, having regard to any change in the school's capacity to accommodate pupils as compared with its capacity at the beginning of the school year to which those standard numbers first applied (whether in accordance with this Section or Section 15 of the 1980 Act)".

The County Council intends to apply for an order basing the standard number on the school's capacity as described in (1)(c) above because the accommodation cannot sustain admissions at the level of the standard number as it has been derived using the other criteria known. Interested parties may obtain details of the method by which the physical capacity has been calculated from the Director of Education, Property and Central Services Branch, County Offices, Lincoln LN1 1YP.
