CASE OFFICER ASSESSMENT

Proposal

This is an application for a proposed extension and alterations at 148 Spalding Road, Pinchbeck. The proposal seeks to provide internal alterations at ground floor level. Two additional bedrooms will be provided upstairs, and the bathroom will be changed to a shower room. This will be achieved by creating an extension above the eastern elevation roof slope, with an east facing window serving one of the new bedrooms.

Site Description

The proposal is within defined settlement limits and the surrounding area is characterised by dwellings of varying ages and design.

History

None

Consultation Responses

None

Planning Considerations

- Principle of development
- Impact of development

Principle of development

The proposal is within the defined settlement limits of Spalding which is the largest settlement in the district. The property is not subject to any development restrictions.

Impact of development

There is not considered to be any material harm to neighbouring residential amenity from overlooking or overshadowing. This is because the eastern elevation first floor window directly faces a downstairs bathroom window and a landing window on the western elevation of 150 Spalding Road facing the proposal. The proposal roof line does not come higher than that of the existing dwelling. The design, scale and layout is considered to be appropriate for the site and does not materially impact the character of the dwelling or the surrounding area. Render and tiling is to match that of the existing dwelling and will be conditioned as such.

The proposal is considered to accord with Section 12 of the National Planning Policy Framework.

Conclusion

In light of the above considerations the proposal is considered to be in accordance with Policies 1, 2 and 3 of the South East Lincolnshire Local Plan, 2019, as well as Section 12 of the National Planning Policy Framework, 2019.

A delegated approval is considered to be appropriate.

Additional Considerations

Public Sector Equality Duty

In making this decision the Authority must have regard to the public sector equality duty (PSED) under s.149 of the Equalities Act. This means that the Council must have due regard to the need (in discharging its functions) to:

- A. Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act
- B. Advance equality of opportunity between people who share a protected characteristic and those who do not. This may include removing or minimising disadvantages suffered by persons who share a relevant protected characteristic that are connected to that characteristic; taking steps to meet the special needs of those with a protected characteristic; encouraging participation in public life (or other areas where they are underrepresented) of people with a protected characteristic(s).
- C. Foster good relations between people who share a protected characteristic and those who do not including tackling prejudice and promoting understanding.

The protected characteristics are age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

The PSED must be considered as a relevant factor in making this decision but does not impose a duty to achieve the outcomes in s.149. It is only one factor that needs to be considered, and may be

balanced against other relevant factors.

It is not considered that the recommendation in this case will have a disproportionately adverse impact on a protected characteristic.

Human Rights

In making a decision, the Authority should be aware of and take into account any implications that may arise from the Human Rights Act 1998. Under the Act, it is unlawful for a public authority such as South Holland District Council to act in a manner that is incompatible with the European Convention on Human Rights. The Authority is referred specifically to Article 8 (right to respect for private and family life) and Article 1 of the First Protocol (protection of property).

It is not considered that the recommendation in this case interferes with local residents' right to respect for their private and family life, home and correspondence, except insofar as it is necessary to protect the rights and freedoms of others (in this case, the rights of the applicant). The Council is also permitted to control the use of property in accordance with the general public interest and the recommendation is considered to be a proportionate response to the submitted application based on the considerations set out in this report.
