

INTRODUCTION

Rutland County is a family company offering an efficient and personal service. We are specialist manufacturers, suppliers and builders of high quality bespoke hardwood conservatories of versatility, individuality, practicality and style.

CONSTRUCTION

It is a poor reflection on this industry as a whole that most conservatories are unfit for the purpose for which they were bought. Many glass houses are more like igloos in the winter and poorly ventilated hot houses in the summer. Our buildings have a specification that ensures comfortable living conditions throughout all the seasons of the year, enabling our customers to capitalise on the numerous days of glorious sunshine when it is far too cold to sit in the garden. Our superb ventilation system avoids the "Sauna Bath Syndrome".

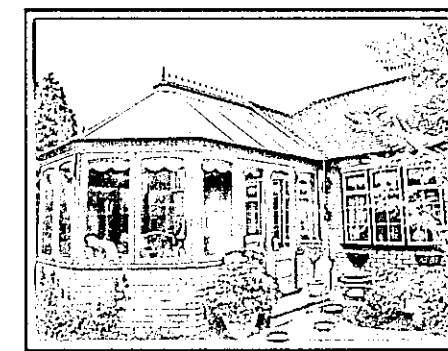

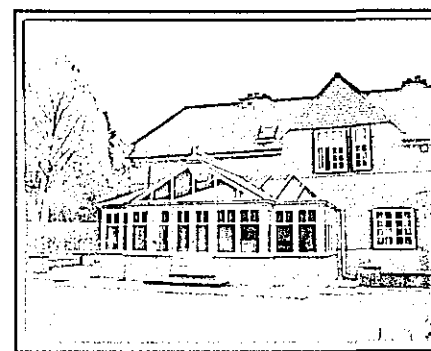

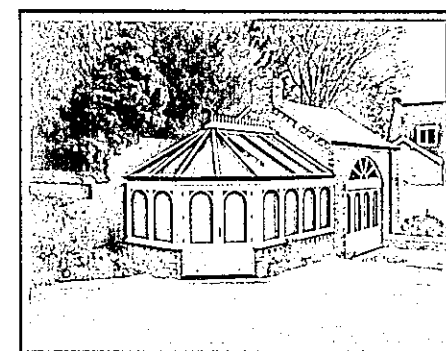

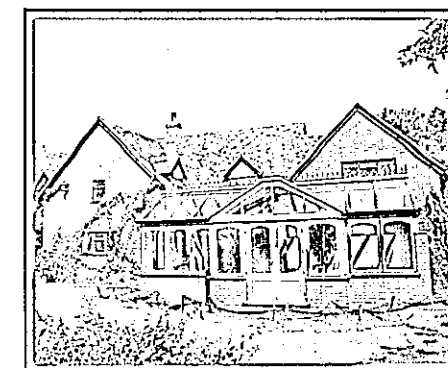

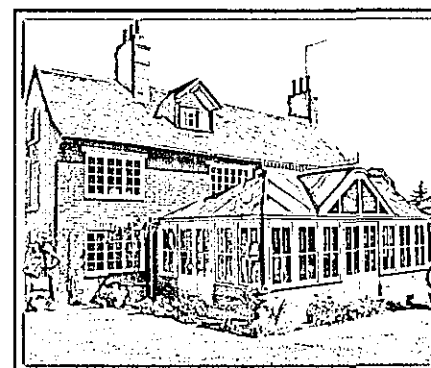

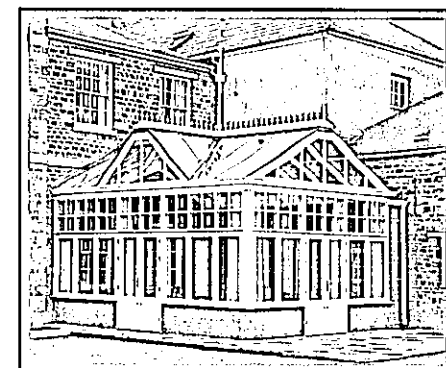

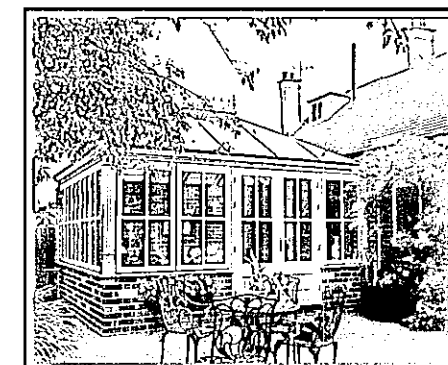

Bespoke Conservatories

TRADITION

Many of our conservatories are attached to Listed buildings and all are custom built to harmonise and have empathy with the adjoining structure. For a conservatory to be aesthetically pleasing, much attention needs to be paid to the architectural theme of the host building.

Many of our competitors offer an instantly recognisable modular compromise which seldom looks as though it "belongs". You will see from this brochure how Rutland County Conservatories are different and enhance the appearance of the host building.

PLANNING PERMISSION

Conservatories do not always need Planning Permission. Rutland County can outline planning requirements, ascertain feasibility and help eradicate any anticipated problems. We can also provide a specialist service in respect of Planning Permission and Listed Building consent and undertake the necessary work involved FREE OF CHARGE. Should your property be a brand new development or a Listed building, your proposed project may be exempt from VAT.

If you take the opportunity to view the full portfolio of our work you will realise that no two Rutland County Conservatories are the same. If you would like more information or a site visit to discuss size, design and price, please contact: Mike or Veronica Bowden for free advice without obligation:

WE OFFER AN EFFICIENT, PERSONAL SERVICE AND A QUALITY PRODUCT AT A FAIR PRICE, NOT A HARD SELL !!

PERIPHERALS

We are constantly researching the market place and are happy to advise on line options available for flooring, furniture and blinds.

We hope that the information in this brochure has helped to give you a few ideas as to how we approach our business. Our main aim is to provide our clients with a service, not merely to sell something. If you invite us to look at the feasibility of your initial ideas it is a fact finding exercise for both of us. Our customers select the company of their choice in their own good time; word of mouth has sustained our business and enabled us to grow.
