Application H14-0235-22
Location Land Adj. Four Acres Beck Bank West Pinchbeck
Proposal Details of desktop study to deal with contamination, existing & proposed site levels & foul & surface water disposal (Conditions 4, 6 & 7 of H14-0370-21)

Name Sue Armour
Address Environmental Protection Officer SHDC

Date Submitted 09-05-22
For/Against Comments

Following discussion with Peter Flavill of seven22 Architecture Ltd I understand that the site strip had already taken place prior to submission of a remediation method statement, and therefore validation has been submitted for consideration. I have reviewed the I2 Analytical Report Number : 22-52539, Chain of custody records and site plan submitted by Peter Flavill of seven22 Architecture Ltd and recommend discharge of condition 4 of H14-0370-21 in full. The developer is reminded that should unexpected contamination be identified during construction, this department should be reconsulted immediately.
