Lincoln LN1 1YL

Head of Planning
Lincolnshire County Council

1. It should be noted that this approval only relates to the details submitted and not to the compliance with the provision of the condition.

APPROVED DETAILS

Condition 3

Condition 3 requires a Construction Environmental Management Plan (CEMP) to be submitted for approval. Section 5 (as approved by permission H14-0326-19) is now to be delivered in two distinct phases – Phase 5a and Phase 5b. A CEMP has previously been submitted and approved in relation to works within Phase 5a (as confirmed by the approval notice dated 29 July 2020).

A CEMP has now been submitted which relates to Phase 5b (Jacobs document dated December 2020 (Version 4)) and contains details on a range of different matters including the measures and controls to be adopted during the construction of this phase of works and which addresses any potential impacts such a noise and dust, light pollution, landscaping, etc. The CEMP lists the commitments and actions that are required in order to ensure compliance with legislation and to ensure that environmental effects highlighted in the original Environmental Statement and its appendices that supported the application are adequately considered and managed.

Having reviewed the submitted document, this notice confirms that the CEMP and details contained therein are acceptable. This approval notice therefore confirms that construction works within Phase 5b can commence subject to compliance with the details as contained within the CEMP referenced above and that subject to this the full requirements of Condition 3 have now been met and discharged.
