Dear Polly

I did say that there was one further image to come, and this is attached. This is for information but placing on the web record.

I attach an illustrative plan showing Plots 25-29 (with the footpath to Gallery Walk just seen extreme right with railings) . Plots 28 & 29 are affordables.

The plan usefully shows the *deepest* part of the drainage basin (southwest corner) which is the only section that might remain wet in winter conditions. The open space has been designed to be useable, so has shallow sides even at the 'deep' end. You will also see this shown on our drainage basin cross section (*21027-014 rev P2 - Drainage Basin Section Detail*).

Gordon
