CASE OFFICER ASSESSMENT

Proposal

This is a discharge of conditions application providing details of Construction Management Plan and Method Statement (Condition 5 of H14-1095-24).

Site Description

The application site is located within an existing Main Employment Area, identified on Policies Inset Map No 2 'Spalding and Pinchbeck'. The application site is located on West Marsh Road, to the east is Vernatts Drain, a wildlife corridor and the site has good access to an existing identified cycle route.

The application site is located within flood zone 3 in accordance with EA Mapping and considered to be a 'danger for most' by the South East Lincolnshire SFRA.

The site is currently owned by Westfaliafruit Ltd who supply other fresh produce including avocados, citrus, cherries, blueberries, & many others, to international markets. At this site processing occurs, given the use of the site a B2 classification.

History

H14-1095-24 - Construction of warehouse, to include larger packhouse, offices, new canteen & toilet facilities, larger dispatching area, loading docks & automation. Approved 25-06-25

Consultation Responses

Anglian Water

No comments to make.

IDB

Further to receipt of the above, I confirm that Welland & Deepings IDB have no comment to make.

Highways & Suds

No objection - The Details of Construction Management Plan and Method Statement (Condition 5 of H14- 1095-24) are acceptable in accordance with approved drawings and details submitted with this application.

Environmental Protection

I have no concerns regarding the CEMP.

Planning Considerations

Condition 5 - Construction Management Plan & Method Statement

The condition requires:

The development hereby permitted shall be undertaken in accordance with a Construction Management Plan and Method Statement that shall first be submitted to, and approved in writing by, the Local Planning Authority. The Construction Management Plan and Method Statement shall indicate measures to mitigate against the adverse impacts of vehicle movements and vehicle parking and shall include; - the phasing of the development to include access construction; - the parking of vehicles of site operatives and visitors; - the loading and unloading of plant and materials; - the storage of plant and materials used in constructing the development; - wheel washing facilities; - a strategy stating how surface water run off on and from the development will be managed during construction

The applicant has provided:

-Construction Environmental Management Plan (HSD159 Rev 2)

The above information has been assessed by both Environmental Protection as well as Highways.

They both consider the above management plan to be acceptable and meet with the requirements of condition 5. On this basis condition 5 is discharged.

Additional Considerations

Public Sector Equality Duty

In making this decision the Authority must have regard to the public sector equality duty (PSED) under s.149 of the Equalities Act. This means that the Council must have due regard to the need (in discharging its functions) to:

A. Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act

B. Advance equality of opportunity between people who share a protected characteristic and those who do not. This may include removing or minimising disadvantages suffered by persons who share a relevant protected characteristic that are connected to that characteristic; taking steps to meet the special needs of those with a protected characteristic; encouraging participation in public life (or other areas where they are underrepresented) of people with a protected characteristic(s).

C. Foster good relations between people who share a protected characteristic and those who do not including tackling prejudice and promoting understanding.

The protected characteristics are age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

The PSED must be considered as a relevant factor in making this decision but does not impose a duty to achieve the outcomes in s.149. It is only one factor that needs to be considered, and may be balanced against other relevant factors.

It is not considered that the recommendation in this case will have a disproportionately adverse impact on a protected characteristic.

Human Rights

In making a decision, the Authority should be aware of and take into account any implications that may arise from the Human Rights Act 1998. Under the Act, it is unlawful for a public authority such as South Holland District Council to act in a manner that is incompatible with the European Convention on Human Rights. The Authority is referred specifically to Article 8 (right to respect for private and family life) and Article 1 of the First Protocol (protection of property).

It is not considered that the recommendation in this case interferes with local residents' right to respect for their private and family life, home and correspondence, except insofar as it is necessary to protect the rights and freedoms of others (in this case, the rights of the applicant). The Council is also permitted to control the use of property in accordance with the general public interest and the recommendation is considered to be a proportionate response to the submitted application based on the considerations set out in this report.

Conclusion

Condition 5 of H14-1095-24 is hereby discharged.
