TOWN AND COUNTRY PLANNING ACT 1990 TREE WORKS IN A CONSERVATION AREA

Reference: H14-0720-24 **Date of Decision:** 5th September 2024
Applicant: S Parker
47 Church Street
Pinchbeck
Spalding
Lincolnshire
PE11 3UB
Location: 47 Church Street Pinchbeck Spalding Lincolnshire
Description: Works to Trees in Pinchbeck Conservation Area

Detailed Description:

Notification of proposed works to trees which grow in the grounds of 47 Church Street and overhang the south western boundary wall between 47 and 43 Church Street.

'Cherry Tree x 2 Trim the branches back that are resting on 43 Church Street roof.
Beech Tree x 2 Trim the branches back that are resting on 43 Church Street roof.
Leylandii (Conifer) Trim the branches back that are resting on 43 Church Street roof.'

South Holland District Council has considered the proposal and has no objections, subject to any recommendation set out below;

- 1 That the proposed work is carried out within two years of the date of this letter of 'No Objection'.
- 2 Work is to be carried out in accordance with BSI 3998 : 2010, 'Recommendations for Tree Work'.

Notes:

The necessary consent of all other interested parties should be obtained before the works proceed.

Pruning works to species of Prunus (cherry/plum), should ideally be carried out after flowering but before mid-July to help prevent infection by the fungus known as silver leaf. If pruned out of season a preventative wound paint may be applied.

Conifers such as Leyland cypress should ideally only be heavily pruned (or topped) in July. The optimum time for annual trimming works is between July and August. Works in the late autumn, winter and early spring months should be avoided. Always check if nesting birds are present before works are to be undertaken and, if present, delay until the fledglings have been reared and have flown the nest.

Under the Wildlife and Countryside Act 1981 (as amended) all birds, their nests and eggs are protected by law and it is an offence to damage or destroy the nest of any wild bird while it is in use or being built. In the event of query please contact Natural England on Tel: 03000 603900.

Bats are protected species under the Wildlife and Countryside Act 1981 (as amended) and in the event that bats are living in any cavities in the tree(s), or if they are discovered while the works are taking place, please inform Natural England on Tel: 03000 603900 before works proceed.
