Dear Mark,

My apologies for the delay.

The attached shows our building in context of the one adjacent and in relation to the (highly) accurate EDM survey of the site.

Does that do the job you wanted?

Kind regards

Steve Dunn

Dear Steve,

With regard to the above planning application are you in a position to submit the block plans with the adjacent building shown?

I look forward to hearing from you,

Kind regards,

Mark

Dear Mark.

I hope to talk to you regarding this matter anyway (message left) but I wondered what prospect there was of an early determination in this matter?

The application seems straightforward enough (industrial development on a suitable allocated site) and I don't think there have been any objections to the proposal to date (?)

My client has a need for the building as a matter of absolute urgency, as a result of which I am prompted to ask this question. We should very much like to break ground as soon as possible, and in principle I cant see any reason why a prompt decision (well within any terminal date prevailing) should not be forthcoming.

I look forward to hearing from you.

Kind regards

Steve Dunn
