**SECURE ONE** **WHY CHOOSE SECURE ONE TO PROTECT YOUR HOME?**

Formerly part of East Midlands Electricity, the Secure One team has over 20 years' experience of designing, installing and maintaining home security systems.

The quality of our products, workmanship and customer service is recognised throughout the security industry. Accredited by NACOSS (the National Approved Council for Security Systems) and NIC EIC (the National Inspection Council of Electrical Installation Contractors), our unquestioned professionalism promises total reassurance and complete peace of mind.

So whether out visiting friends, away on holiday or at home asleep, you can rest easy - secure in the knowledge that our intruder alarm is ever alert. With a Secure One system, you won't just hope your home and family is reliably protected - you'll know it is.
