Access roadways to all residential properties should be constructed to an adoptable standard under an agreement with Lincolnshire County Council so that they will become public highways. This will enable refuse/recycling collections to be carried out from outside individual properties without the need for communal collection points at the point where private driveways adjoin public highways.
If not utilised correctly communal collection points become areas of dispute for residents of adjacent properties.
If the access roadways are not to be constructed to a standard to be adopted as public highways then refuse / recycling / garden waste (if applicable) from all the plots will need to be presented where the private roadways adjoin the public highway in order to be collected by South Holland District Council..
