I have reviewed the ListersGeo 'Ground Investigation Report Land at Perryfield, Pinchbeck, Spalding, Lincolnshire PE11 3SL Report no. 17.03.020' Issue 3 'Final Report Rev1' dated 1st August 2018 and am satisfied that this meets the requirements of parts i-iv of planning condition number 3 of H14-0241-18 and that I recommend the condition be discharged.
As always, the developer is reminded that should contamination not previously identified be encountered during construction, all work should cease until a scheme to address the contamination has been agreed with this department.
