The proposal site is within the defined settlement limits of West Pinchbeck, so the principle of development on this site is considered acceptable. The site is within Flood Zone 3 on the Environment Agency Flood Maps. It is flagged as a low hazard area with a maximum predicted flood depth of 0.25 metres on the 2115 South Holland Strategic Flood Risk Mapping.
Ideally each dwelling should provide a minimum of two parking spaces but this is a matter that could be discussed with the County Highways & SUDS Department prior to submission. The dwellings should be designed in such a way that the potential for overlooking and overshadowing is kept to a minimum in the interests of neighbour and occupant amenity.
It is considered that an appropriately designed scheme would be supported on this site. As is stands it is likely that amendments would need to be made to parking provision and location.
