CASE OFFICER ASSESSMENT

Proposal

This is a householder application seeking permission for a workshop extension at Reedcraft, Mill Green Road, Pinchbeck.

Site Description

The site is located outside the defined settlement boundary of Pinchbeck as outlined in the South East Lincolnshire Local Plan, 2019 (SELLP). The surrounding area is characterised as sporadic residential development, with dwellings situated on spacious sites. There is a dyke to the south of the property, with the dwelling situated in the south west corner of the plot. There are a variety of outbuildings on the site, with an open grassed partly area towards the east of the site. There is further residential development in the process of being built, towards the south of Mill Green Road of up to 100 dwellings.

History

H14-0449-08- Approved 14-10-08- Change of use to breeding cattery, including erection of cattery units, store and provision of exercise area (part retrospective).

Consultation Responses

Lincolnshire County Council Highways

ADDITIONAL INFORMATION REQUIRED

Will the proposed extension result in any increase in vehicle movements to and from the site?

Correspondence with the Agent confirmed that there will be no additional vehicle movements associated with extension.

Key Planning Considerations

The main issues and considerations in this case are (but are not limited to):
- Principle of Development and Sustainability
- Layout, Design, and Impact on the Character of the Area
- Impact on Neighbouring Residents/Land Users/Land Uses

Evaluation

Section 38 (6) of the Planning and Compulsory Purchase Act 2004, as amended, requires that the Local Planning Authority makes decisions in accordance with the adopted Development Plan, unless material considerations indicate otherwise.

In this case, the adopted South East Lincolnshire Local Plan 2011-2036, adopted March 2019, forms the development plan for the District, and is the basis for decision making in South Holland. The relevant development plan policies are detailed within the report above.

The policies and provisions set out in the National Planning Policy Framework (December 2024) are also a material consideration in the determination of planning applications, alongside adopted Supplementary Planning Documents.

Planning Considerations

Principle of Development and Sustainability

The South East Lincolnshire Local Plan (2019) sets out the settlement hierarchy in respect of delivering sustainable development that meets the social and economic needs of the area whilst protecting and enhancing the environment; in order to provide enough choice of land for housing to satisfy local housing need, whilst making more sustainable use of land and to minimise the loss of high-quality agricultural land by developing in sustainable locations and at appropriate densities.

Policy 1 of the South East Lincolnshire Local Plan (2019) sets out a spatial strategy for delivering sustainable development across South East Lincolnshire to 2036. Policy 1 (Spatial Strategy)

expresses this sustainable framework of settlements, ranking the settlements deemed to be most sustainable in descending order.

Policy 1 (Spatial Strategy) of the South East Lincolnshire Local Plan (2019) indicates that within Main Service Centres, development will be permitted that supports their role as a service centre for the settlement itself, helps sustain existing facilities or helps meet the service needs of other local communities.

The application site in this instance is in outside as detailed by Policy 1. Regardless of such, the proposal solely relates to the extension to a workshop within an existing and established residential plot and therefore, the principle of such development is considered to be appropriate, comprising an appropriate form of development for the location.

As such, the proposal is considered to be acceptable with the requirements of the South East Lincolnshire Local Plan (2019) when viewed in principle. This is subject to the assessment against site specific criteria; including (but are not limited to) the impact of the proposal on the character or appearance of the area, impact on the residential amenities of neighbouring occupiers, and impact on highway safety, which are discussed in turn as follows.

Layout, Design and Consideration of the Character and Appearance of the Area

Section 12 of the National Planning Policy Framework (December 2024) specifically relates to 'Achieving well-designed and beautiful places' and details that the "creation of high quality, beautiful and sustainable buildings and places is fundamental to what the planning and development process should achieve" and as such, it is generally accepted that good design plays a key role towards sustainable development.

Paragraph 135, contained within Section 12 of the National Planning Policy Framework (December 2024), states that new development should function well and add to the overall quality of the area (including beyond the short term) and should be visually attractive as a result of good architecture and appropriate landscaping. This goes on to establish that it is important that new development should be of the highest quality to enhance and reinforce good design characteristics, and that decisions must have regard towards the impact that the proposed development would have on local character and history, including the surrounding built environment and landscape setting such as topography, street patterns, building lines, boundary treatment and through scale and massing.

Development proposals should also ensure that developments create places that are safe, inclusive and accessible and which promote health and well-being, with a high standard of amenity for existing and future users, among other considerations.

Likewise, Policy 2 of the South East Lincolnshire Local Plan outlines sustainable development considerations for development proposals, providing a framework for an operational policy to be used in assessing the sustainable development attributes of all development proposals. Furthermore, Policy 3 accords with the provisions of Section 12 of the National Planning Policy Framework, in that it requires development to comprise good design; identifying issues that should be considered when preparing schemes so that development sits comfortably with, and adds positively to, its historically-designated or undesignated townscape or landscape surroundings.

These policies accord with the provisions of the National Planning Policy Framework and require that design which is inappropriate to the local area, or which fails to maximise opportunities for improving the character and quality of an area, will not be acceptable.

Proposals for new development would therefore require the aforementioned considerations to be adequately assessed and designed, including the siting, design and scale to be respectful of surrounding development and ensure that the character of the area is not compromised.

The materials used on the workshop extension will match the existing throughout to ensure the extension appears in keeping and in character thus causing no material harm.

It would protrude from the rear elevation by around 5m and have a total length of 15.9m which can be split up into 7.6m and 8.3m respectively. For the smaller internal storage section, the eaves and ridge will be level where as the external section is slightly lower than this. The design is therefore considered to be acceptable and suitable for this location whilst appearing proportionate as well.

Taking account of the design, scale and nature of the development, as detailed above, the proposal is considered to be acceptable. The proposal would not cause an adverse impact to the character or appearance of the area and would therefore be in accordance with policies 2 and 3 of the South East Lincolnshire Local Plan and Section 12 of the National Planning Policy Framework (December 2024).

Impact on Residential Amenity/Land Users

Paragraph 135 of the National Planning Policy Framework (December 2024) states that development should create places that are safe, inclusive and accessible and which promote health and well-being, with a high standard of amenity for existing and future users; and where crime and disorder, and the fear of crime, do not undermine the quality of life or community cohesion and resilience.

Policies 2 and 3 of South East Lincolnshire Local Plan (2019) sets out that residential amenity and the relationship to existing development and land uses is a main consideration when making planning decisions.

Due to the adequate separation distances to neighbouring properties and the nature of the room, there is not considered to be any material overlooking or overshadowing. The development is also not considered to be overbeating in this instance.

As detailed above, the scale and design of the proposal is considered to be such that there would be no significant or unacceptable impact on the residential amenities of the occupiers of adjacent properties or land users, when also taking account of the conditions recommended. As such, the proposal is considered to accord with the provisions of the Section 12 of the National Planning Policy Framework (December 2024), and Policies 2 and 3 of the Local Plan.

Planning Balance

As detailed above, Section 38 (6) of the Planning and Compulsory Purchase Act 2004, as amended, requires that the Local Planning Authority makes decisions in accordance with the adopted Development Plan, unless material considerations indicate otherwise.

The proposal represents appropriate development outside the defined settlement boundary. The development hereby proposed does not materially harm the character or appearance of the locality, or amenity of nearby residents, whilst conforming with the South East Lincolnshire Local Plan and the provisions of the National Planning policy Framework when viewed as a whole.

In this instance, there are no material considerations that weigh against the proposal and as such, the planning balance is in favour of the development.

Additional Considerations

Public Sector Equality Duty

In making this decision the Authority must have regard to the public sector equality duty (PSED) under s.149 of the Equalities Act. This means that the Council must have due regard to the need (in discharging its functions) to:
A. Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act
B. Advance equality of opportunity between people who share a protected characteristic and those who do not. This may include removing or minimising disadvantages suffered by persons who share a relevant protected characteristic that are connected to that characteristic; taking steps to meet the special needs of those with a protected characteristic; encouraging participation in public life (or other areas where they are underrepresented) of people with a protected characteristic(s).
C. Foster good relations between people who share a protected characteristic and those who do not including tackling prejudice and promoting understanding.

The protected characteristics are age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

The PSED must be considered as a relevant factor in making this decision but does not impose a duty to achieve the outcomes in s.149. It is only one factor that needs to be considered, and may be

balanced against other relevant factors.

It is not considered that the recommendation in this case will have a disproportionately adverse impact on a protected characteristic.

Human Rights

In making a decision, the Authority should be aware of and take into account any implications that may arise from the Human Rights Act 1998. Under the Act, it is unlawful for a public authority such as South Holland District Council to act in a manner that is incompatible with the European Convention on Human Rights. The Authority is referred specifically to Article 8 (right to respect for private and family life) and Article 1 of the First Protocol (protection of property).

It is not considered that the recommendation in this case interferes with local residents' right to respect for their private and family life, home and correspondence, except insofar as it is necessary to protect the rights and freedoms of others (in this case, the rights of the applicant). The Council is also permitted to control the use of property in accordance with the general public interest and the recommendation is considered to be a proportionate response to the submitted application based on the considerations set out in this report.

Conclusion

Taking the above considerations into account, the proposal is considered to be in accordance with Policies 1, 2 and 3 of the South East Lincolnshire Local Plan (SELLP) (2019), along with the identified sections contained within the National Planning Policy Framework (NPFF) (December 2024). The are no significant factors in this case that indicate against the proposal and outweigh the consideration in favour of the proposal and the policies referred to above.

Recommendation

Based on the assessment detailed above, it is recommended that the proposal should be approved under Delegated Authority.
