Autism Care (UK)'s commitment is to enable service users to experience valued and stimulating lifestyles and whether referred to as Day Care or not, that day activities should be valid and appropriate and should not be rigid, institutional or stigmatising and should not become regarded as a chore either by providers or service users. What is provided is a well thought out total package which results in a fulfilling and rewarding lifestyle for each individual service user and equally a rewarding and enjoyable activity for staff supporting them.

Other Services offered by Autism Care (UK) Ltd:

Outreach: The establishment of the outreach team is a key component of a range of services designed to promote independence and enable individuals to live in their local community.

Respite: Autism Care (UK) Ltd aims to provide a different environment for the client, to give carers a break, to provide support in their own environment, to maintain and improve the client's skills, maintain community links.

Supported Living: Autism Care (UK)'s prime objective is the empowerment of people with learning disabilities and the facilitation of ordinary lifestyles, which give dignity and autonomy to users of our services.

Supported Employment: Autism Care also works in partnership with other organisations and agencies to develop employment opportunities for service users.
