Thank you for consulting Pedals. The submitted drawings do not show how many cycle stands are proposed, nor what type of stands will be provided. The photograph implies that there will be two Sheffield type stands, accommodating a total of four bikes, which is the number stated in the application form for H14-0781-15. This appears sufficient for the number of employees stated in that earlier application. (One wonders why 11 car spaces are needed.) If an increase in the number of employees is anticipated it may be prudent to double the size of the cycle store.
