

PROPOSED FORKLIFT PLAN

PROPOSED FUEL COVER PLAN

# PROPOSED NEW BUILDINGS AT ROBSONS OFF FLEMING ROAD SPALDING LINCS

**DO NOT SCALE FROM THIS DRAWING**

This drawing is the property of Julian Warrick Design Consultant and is subject to copyright. The drawing is to be read in conjunction with all relevant specifications and other consultants drawings. Any discrepancies are to be reported to the author before proceeding with the work. Any variations are to be agreed with the author before proceeding with the work. No responsibility can be accepted for variations carried out on site without prior agreement. Only the dimensions given are to be taken from this drawing. Contractors must check all dimensions on site before commencing any shop drawings or the manufacture of any components. Any discrepancies are to be reported to the author before proceeding with the work. This drawing is to be used for the purpose stated on this drawing only. Any unauthorised use of this drawing is strictly prohibited. The author is not responsible for any errors or omissions in this drawing caused by inaccurate or incomplete information supplied by others. Any discrepancies are to be reported to the author before proceeding with the work. This drawing is to be used for the purpose stated on this drawing only. Any unauthorised use of this drawing is strictly prohibited. The author is not responsible for any errors or omissions in this drawing caused by inaccurate or incomplete information supplied by others. All dimensions are in millimetres unless otherwise stated. All levels are to Ordnance Datum. The works are to be supervised or inspected on site by a Warrick Architectural Design Consultant. Any variations are to be agreed with the author before proceeding with the work. The submission of proposals, samples or specifications relating to components and materials to be incorporated in the works for approval must be made sufficiently in advance to allow adequate time for consideration and for any subsequent modifications that may be required. All materials and components are to be used and fixed in accordance with the manufacturers recommendations. Any proposed alterations to the approved Building Control drawings must be submitted to the Building Control Surveyor for approval before work proceeds. Any proposed alterations to the approved CDM plan must be submitted to the CDM Co-ordinator for approval before work proceeds. It is the responsibility of the contractor to ensure that adequate temporary bracing and propping is provided to maintain the stability of the structure during construction. Work must not start on site until a Building Notice or Full Plans application has been submitted to the Local Authority Building Control Department and the Notice period has expired or Full Plans have been approved. Party Wall etc. Act 1996: where building or other works are to be carried out in accordance with the provisions of the Party Wall etc. Act 1996, adjoining owners must be informed at least one month before commencement of the works. The Contractor must be responsible for ensuring that adequate insurance cover is in force before any work commences on site. Work that may not specifically be shown but is reasonably inferred as necessary to carry out the works shown on the drawings shall be carried out by the Contractor as if described. Where there is a conflict between the Architect's drawings and the Engineer's drawings, the Engineer's drawings shall be followed by the work. The General Contractor must be Asbestos Aware to the latest codes of practice
