Please add this email on the DIP under 6SUP – Purlins details.

Many thanks.

This message originated from outside your organization

Hi David,

I assume you are referencing paragraph 4.1 relating to the lean-to roof. If that's the case it looks like there is around 6 purlins that have some minor deflection and having thought about it given that they are in generally good condition we think all we will do is add a steel plate to the sides of the existing rafters to strengthen them rather than replace them.

Happy to agree the extension of time but hopeful that you can issue the approval much earlier than the 26th January. Given that the original extension of time was to take this prior approval application to committee which wasn't required.

Kind regards,

Johnathon Gower BA (Hons), ACIAT

Dear Johnathon,

I hope all is well. Sorry to email so late in the process but I have noticed that the structural survey states that new roof purlins will need to be installed. Can you please specify the number of new purlins?

The application elapses on 19 January 2022, can I kindly request a small extension of time to 26 January 2022 to allow for this question to be answered, and this element of the report addressed?

Kind regards,

David Grant | Senior Planning Officer | **South Holland District Council**
