The submitted Design, Access and Heritage Statement outlines that the barn subject to the application dates from the 1960s-1970s and holds no identified heritage or architectural significance, given its date of construction and the prevalence of comparable examples within the wider agricultural landscape. Consequently, no further archaeological input is necessary for this application. It is not necessary to consult us on this application again, unless there are material changes to the proposals. However, if you would like advice from us, please contact us to explain your request.
