This office can confirm that it has approved the specification submitted here as meeting all of our requirements in respect of Condition 3.

However, no other archaeological conditions (4 or 5) should be discharged, since to date we are not aware that the archaeological works outlined in the specification have actually been carried out.

We have not received due notice, and we have not received a copy of the final report.

These conditions cannot be discharged until the necessary building recording outlined in the agreed specification have been completed and the report deposited as required.
