Proposal Erection of agricultural barn (retrospective) - re-submission of H15-0809- 16

Attn: Donna Armstrong-Taylor

Further to our recent retrospective application for the Agricultural Barn, we received an email from the Senior Planning Officer at South Holland District Council yesterday, together with a Consultation response from Quadding Parish Council, requesting clarification of the purpose of the building and intended usage required.

We confirm the main agricultural barn is currently primarily for storage of hay, straw, farm equipment, machinery, tools and tractor.

We may also, when required, bring livestock into the main barn for the purpose of maintaining high levels of animal welfare, similarly livestock may also occasionally be brought into the main barn for farrowing, all this during periods of excessively wet and prolonged bad weather.

Although this is not an exclusive list of intended usages, as circumstances evolve they may change but the purpose and usage of the main barn will always be focussed to serve the needs and requirements of the smallholding.

We trust this clarifies our purpose and intended usage for the main agricultural barn, but if you have any further queries, or indeed would like to view the barn please do not hesitate to contact us to make an appointment. (Please note Bio Security is in place).

Kind regards
Lucy and Colin Kenney
