Are you supplying additional information on submitted plan(s)/drawing(s)/design and access statement.

If Yes, please state references for the plan(s)/drawing(s)/design and access statement:

Additional Information:

The original full planning consent (Ref: H-15-0809-16) was granted 26.09.16.

The changes to the original consent were made due to the excessive rainfall in the winters of 2019, 2020 and 2021, which would have made both the original position of the door and the extra 4m x 10m storage area at the rear of the barn for equipment unusable during periods of heavy rain through these periods, hence the main door position was relocated from the eastern elevation to the south elevation and the storage area at the rear (4m x 10m) was omitted.

The Agricultural Barn as built is 16.5m long x 10m wide, situated 1m from our rear garden wall for maintenance access and set back from the roadway by 1.8m to allow easier access. This also negated the need to install a large area of concrete apron within the paddock.

To accommodate the storage of the tractor within the barn, the length of the barn was extended to the rear by 1.5m to 16.5m, the width remaining the same at 10m.

The height of the building was reduced to be less imposing on the landscape, similarly the feather edge boarding and Caroline materials were also chosen to be less of an impact on the environment and to fit in with a natural landscape.

The height dimensions are as follows;

Eaves height from floor level: 2.1m

Ridge height from floor level: 3.12m

An apron of 1.8m x 10m will be laid at the front of the barn giving level access to the barn from the roadway.
