Thank you for consulting us on this application.
The Church of Saint Margaret is a designated heritage asset: Listed Building - Grade I
The proposed development will comprise replacement of the south aisle aluminium roof with terne coated stainless steel, implement slim fitting photovoltaics between seams, in addition to installation of air source heat pump unit.
Having reviewed the application documents and the updated available Historic Environment information for this application, the proposal is unlikely to have an impact on any archaeological remains.
Consequently, no further archaeological input is necessary for this application.
The Lincoln Diocese Church of England's Diocesan Advisory Committee (DAC) must be consulted about this application. This committee provides advice on proposals affecting the church's fabric, contents, and setting. They ensure that the changes respect the church's character and significance.
Historic England must be consulted about this application: "Development of land involving the demolition, in whole or in part, or the material alteration of a listed building which is classified as Grade I or II*"
Regarding any potential indirect impacts (setting) to the standing listed building/courtilage, I defer comments to the SHDC Conservation Officer.
