Application H15-0930-16
Location White House Farm Sarahgate Quadring PE11 4QE
Proposal Prior notification to convert a rural building into a dwelling

Name J Reith
Address Environmental Health Technician Safety and Environment

Date Submitted 11-10-16
For/Against Comments

In the section that refers to noise and contamination issues on the application form, the applicant has stated 'see attached documents'. There doesn't appear to be any information on either of these areas. I don't have any noise concerns, however due to the previous agricultural use I would like some further information on whether there are any contamination issues. Thanks.
