Dear Sirs

Re: Proposed Change of Use and Extension to Existing Touring and Camping Site is submitted to include the existing and additional fishing lake with a further 8 fishing pegs (12 in total including the existing lake), adapting 5 touring pitches to supply 20 super pitches and replacement/relocation of the existing toilet/shower block with a new block with sufficient facilities for the expansion

Please find enclosed our Planning Application relating to the above scheme, comprising the following documentation:

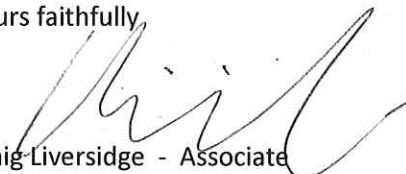

- Drawing No. 7657/SLP, 04A and 06B
- Completed Application Forms
- Ecological Appraisal
- Design and Access Statement
- Cheque in the sum of £1690.00 in respect of the application fee

As described within the Design and Access Statement, this application seeks to gain consent to apply for Change of Use and extend the existing site to expand the overall fishing experience and improve the destination to be more suitable for the increasing desired touring site.

The owner/site manager resides in the detached property, providing security/maintenance and bookings in and off the site. The proposed site will encourage visitors to use the local services and visit local tourism attractions in both nearby villages and local towns, being advertised and promoted on both arrival and on the new website, including public transport links near the site.

We trust you are able to find the application satisfactory and look forward to your approval in due course, however should you wish to discuss any matters further please do not hesitate to contact me.

Yours faithfully,

Craig Liversidge - Associate
