OWNERSHIP CERTIFICATES

PLEASE COMPLETE ALL THREE SECTIONS.

1. APPLICANT'S INTEREST

Please state interest in site (e.g. owner, prosp. purchaser)
(Please remember to indicate on the location plan any other land under your control).

OWNER

2. OWNERSHIP OF THE SITE

This certificate is to make sure that the owners of land are aware of applications made on it.

If the applicant is the **sole owner of the whole site**, complete **Certificate A**.

In **any other case** (i.e. if the applicant is a prospective purchaser, or a tenant, or a joint owner, or the sole owner of only part of the site) then you must give notice to all other owners, and complete **Certificate B**. (An "owner" is a person having a freehold interest, or having a leasehold interest where seven years or more remains unexpired). If you are unable to trace the owner, please contact the Planning Office as a different certificate will be required.

Certificate A Nobody except the applicant was an owner of any part of the land to which the application relates at the beginning of the period of 21 days ending with the date of the accompanying application.

Signed C. J. Simpson (Applicant ~~Agent~~) Date 12/1/94

Certificate B The applicant has given the required notice to everyone else who were owners of any part of the land to which the application relates at the beginning of the period of 21 days ending with the date of the accompanying application.

Owner's Name:

Address of owner at which notice was served:

State Date notice served:

Signed (Applicant / Agent) Date

3. AGRICULTURAL HOLDINGS CERTIFICATE

If the land is not in agricultural use complete Certificate 1.

If the land is agricultural, but farmed by the owner and there is no agricultural tenant, complete Certificate 1.

If the site does relate to an agricultural holding, you must give notice to the tenant, and complete Certificate 2. If you are the sole agricultural tenant yourself, sign certificate 2 but insert 'not applicable' in the tenant details.

Certificate 1 None of the land to which the application relates is or is part of any agricultural holding.

Signed C. J. Simpson (Applicant ~~Agent~~) Date 12/1/94

Certificate 2 The applicant has given the required notice to every other person who, at the beginning of the period of 21 days ending with the date of the application, was a tenant of an agricultural holding on all or part of the land to which the application relates.

BEJO ZADEN BV, of Warmenhuizen, The Netherlands, Hereby Give Notice that they have applied to the Secretary of State for a consent to release genetically modified organisms under Section 111 of the Environmental Protection Act 1990 at Elsoms Seeds trials.

The organisms concerned are chicory plants genetically modified with genes for male sterility, kanamycin resistance and glufosinate ammonium (Basta) resistance. With this new system of male sterility Bejo Zaden BV is able to produce parent lines of red hearted and green hearted chicory that are unable to self pollinate, because of the lack of pollen production. Pollination of these male sterile lines with fertile lines results in 100% pure hybrid seeds without any inbreds. This offers Bejo Zaden BV and Elsoms Seeds Ltd the opportunity to provide growers of red hearted and green hearted chicory with pure seed quality with high germination, high yield, improved uniformity and quality.

The purpose of the release is to evaluate the suitability of new experimental hybrids for the UK market. Special attention is given to yield and uniformity.

The release will take place at Elsoms Seeds Ltd trial field on Pinchbeck Marsh near Spalding, OS grid reference 263261, Lincolnshire, between June 1994 and November 1994.

Enquiries about this notice should be directed to:

90cm SMC DTH Antenna

From: MRS. SHARAH.

**MODEL 6019****High performance**

When looking for great satellite TV reception, capture the best with a Channel Master® 90cm SMC direct-to-home satellite antenna.

This 90cm offset antenna offers high performance reception capabilities due to its nearly flawless SMC (sheet molded compound) reflector surface. A sturdy tri-leg feed support system holds the feed assembly securely in position while a molded feed cover protects the electronics from the elements. The choice of feed options include Polarizer, Single Polarity, Orthomode Transducer or LNBF*.

If your contemplating where you can install the 90cm antenna, Channel Master offers several mounting options: on walls, flat or sloped roofs, or ground mounting using a 76mm mast. You also have a choice of fixed heavy-duty AZ/EL mount designs or an actuated polar mount for more programming selection.

Designed to withstand harsh weather, all mounting hardware is cadmium dichromate plated and the steel mount parts are either powder coat painted or galvanized for corrosion resistance. In addition, this durable antenna

system is performance proven in 96km/h winds and temperatures down to -40C.

So when you expect the very best in quality, performance and value—reach for the name that says it all—Channel Master.

SPECIFICATIONS
