CONTAINEX
PLUS Line

Innovative space solutions for the highest demands

CONTAINEX

You want innovation. We offer the PLUS.

Unique feel-good spaces

The high-quality CONTAINEX PLUS Line range enables individual designs of rooms and offers a number of highlights. Thanks to its perfect modular construction, it meets the highest design and equipment standards.

THE INNOVATIVE MODULAR SYSTEM:

- Ideal as a long-term or temporary space solution
- Fire protection REI30 as standard
- Optimal thermal insulation
- Increased payloads
- High-quality equipment options
- Acoustically optimised interior
- Modern, attractive appearance

CONTAINEX EXTRA

Design meets progress

YOUR ADVANTAGES:	CONTAINEX PLUS Line
Sizes [1]	10', 16', 20', 24'
NEW **Sustainable eco components** [2] Eco	✓
Many equipment options e.g. external venetian blinds, full and partial glazing, air conditioning	✓
Fire protection REI30 as standard	✓
High-quality sanitary fittings (concealed)	✓
Plastic-aluminium window with 5-chamber profile	✓

[1] Further details on page 15. [2] Available in selected countries.

FLEXIBLE PANEL SYSTEM:

Blank full panel

Blank half panel

Door panel

Double door panel

Window panel

Double window panel

Sanitary window panel

MODERN GLAZING:

With our large-scale glazing, you can transform your space module into a light, feel-good space.

Glazing with tilt/turn element

Glazing with door

Glazing with double leaf door

Fixed glazing (170 cm)

Fixed glazing (207 cm)

Your project is unique. Just like our execution.

CONTAINEX EXTRA

Secure and child-friendly versions available

Windows and glazing

You can let in plenty of light and create attractive, feel-good spaces with our glazing options.

STYLISH FULL AND PARTIAL GLAZING:

- Windows with 5-chamber plastic profile and aluminium clips in exterior colour (optional)
- Fixed glazing with thermally separated aluminium profiles
- Insulated glazing (U_g value: 0.7)
- Safety glass of all classes (optional)
- Paintwork matches colour of module (exterior) and RAL 9010 (interior)

Shading

Shading has many advantages: it protects against heat, keeps rooms cool and serves as burglary protection and as a privacy design.

CHOOSE FROM VARIOUS OPTIONS:

- Venetian blinds with electric drive
- Roller shutters with insulated aluminium profiles

Fascia and canopy

Aesthetic and practical at the same time: the canopy means you and your customers are not left standing in the rain and – together with a fascia – provides a visual highlight.

ATTRACTIVE EXTERIOR DESIGN:

- High quality solid base frame
- Painted according to CONTAINEX RAL chart*
- Invisible roller shutter box
- Concealed drainage pipes within the corner posts (optional leaf catcher)

Paint

When it comes to quality, we do not compromise. Our high-quality paint is particularly resilient and durable.

INDIVIDUAL DESIGN:

- High-quality paintwork according to colour options*
- Paint system with high weather and ageing resistance

* These achieve shades similar to RAL tones. We do not accept liability for colour variations to RAL tones. Technical clarification is necessary when ordering for the first time.

You focus on sustainability. We will help you.

Eco components

With the new eco-components[1], we are making an additional contribution towards a greener future and protecting the environment.

YOUR BENEFITS:

- Modern and attractive feel-good spaces
- Energy efficient wooden cladding
- Pleasant indoor environment thanks to wood fibre insulation
- Sustainable floor cover
- Sound-absorbing wooden ceiling

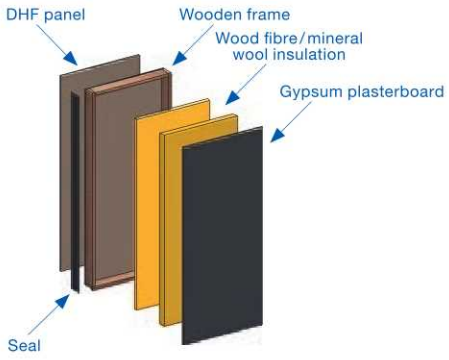

ECO PANEL

- Ecological wood fibre insulation
- Top thermal and sound insulation
- Breathable
- Internal cladding made of plasterboard
- Fire protection EI30 as standard

WOODEN CEILING

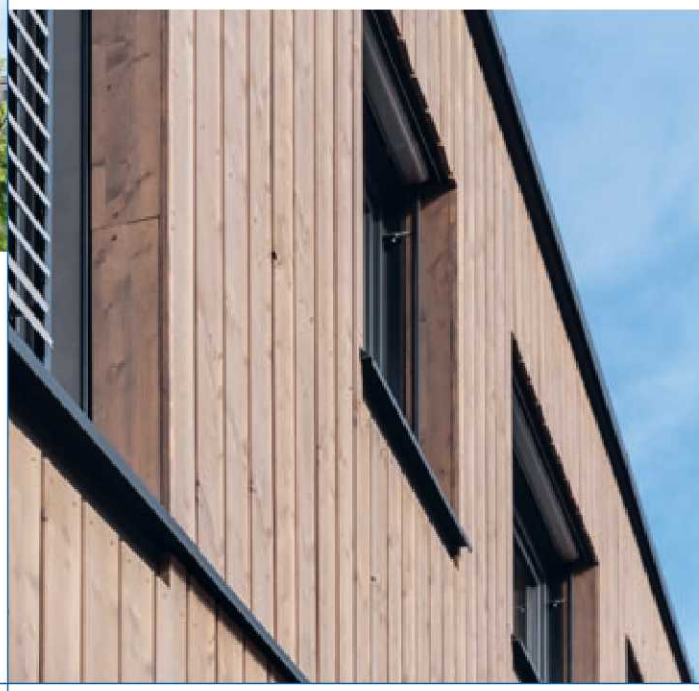

- Modern room design
- Improved living environment
- Good sound absorption

FLOOR COVER

- Promotes a healthy indoor environment
- Durable
- Various floorings:
  - Linoleum (CO_2 neutral, low-emission, made from natural raw materials)
  - Textile floor (high quality, sound absorbing, high durability)

WOODEN FACADE[2]

- Modern appearance
- Ecological and sustainable
- Reduction of energy costs (in combination with substructure)
- Individually adaptable (wood type, battens, etc.)

[2] To be installed on site.

Sustainable fittings

If you use electricity sensibly, it reduces your costs and it is better for the environment.

EFFICIENT USE OF ENERGY:

- LED lighting as standard
- Heating and air conditioning with modern heat pump technology
- Convector heater
- Central heating control
- Motion or occupancy sensor
- Roller shutter box with insulation wedge

CONTAINEX EXTRA

Sustainable power generation using solar modules[1]

[1] Available in selected countries.

You want comfort.
We offer the feel-good factor.

Attractive interior

Do you want a space solution that is not just practical? The CONTAINEX PLUS Line impresses from the outside as well as on the inside with high-quality materials and an elegant design.

WELLBEING ACROSS THE RANGE:

- Various floor covers (e.g. Eternal Wood 2 mm)
- Suspended ceiling and integrated LED lighting as standard
- Extra stud wall for continuous walls
- Solid wooden internal staircase
- Various additional equipment – e.g. motion detector, convector heater, air conditioning, etc.

Sanitary equipment

Hygiene and cleanliness in sanitary areas is very important. Our high quality fittings set new standards for mobile space systems.

SANITARY AREA FOR EVERY REQUIREMENT:

- High-quality sanitary installations (concealed fittings)
- Nursery options available: WC, hand wash basin, scalding protection
- Real-glass shower and high-quality sanitary ceramics
- Various equipment options, e.g. hidden pipe-work, boiler, preparation for washing machine and dryer

CONTAINEX EXTRA

Accessible sanitary fittings

You get an overview.
We pay attention to all the details.

Modular buildings

The innovative modular system creates rooms for every requirement – individually adapted to your needs.

THE AREAS OF APPLICATION ARE NUMEROUS:

- Office, staff and common rooms
- Residential and sleeping accommodation
- Showrooms and sales rooms
- Nurseries / schools
- Club houses and changing rooms
- Exhibition and event rooms
- And much more

3x BM 20'
~38 m²

2x BM 20' + 1x SA 20'
~38 m²

2x BM 20'
~26 m²

CONTAINEX EXTRA

Countless options possible over multiple floors

5x BM 20’ + 1x SA 20’ + 2x BM 20’ (3 m)
~109 m²

10x BM 20’ + 2x SA 20’
~153 m²

The exact dimensions of the modules can be found in the table on page 15.

External staircase options

Reach the top with an external staircase:
This is how you get to the next floor.

EXTERNAL STAIRCASE MODULE IN 2 OPTIONS:

- Without roof with stairs (for ground floor and middle floors)
- With landing and roof (for the top floor)

EXTERNAL STAIRS

- External steel staircase individually available (corner version, straight version, extension)
- Safety handrails on both sides

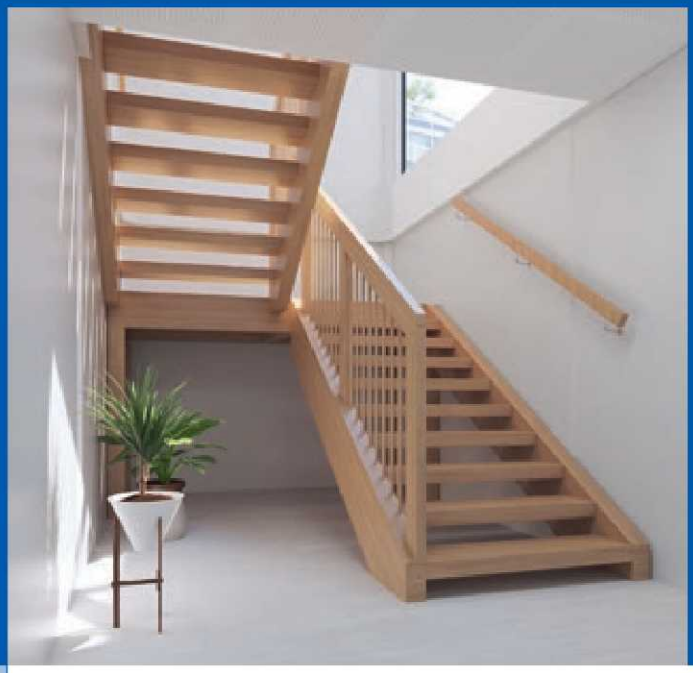

Internal staircase module

An alternative to the external staircase is the internal staircase module which connects multiple floors via the interior.

MAXIMUM STABILITY:

- Staircase with landing (wood type oak)
- Clear width: 1,200 mm
- Fire protection: R30

Terrace module

Open space is important – so provide additional recreational areas. Terrace modules add value to your modular system and are available in various designs.

FLEXIBLE DESIGN:

- With or without roof
- WPC floorboards
- Handrail with perforated sheet metal

Corridor module

Larger modular buildings should be well thought through. Our corridor modules help you to design the paths in a meaningful way.

FROM ROOM TO ROOM WITH EASE:

- Connect different rooms
- Individual design from small space solutions to large office complexes

You look for safety.
We show you the way.

Fire protection

Our fire protection system is suitable for single cabins and modular buildings. It is characterised by a quick assembly and high fire resistance classes.

DURABLE COMPONENTS:

- **Fire protection for the roof:** REI30 as standard or REI60 on request, U-value from 0.15 to 0.16
- **Fire protection for wall elements:** EI30 as standard, U-value from 0.13 to 0.20

U-value = Thermal transmission coefficient in W/(m²K)
REI/EI: R = Load bearing capacity, E = Partition, I = Insulation

Insulation

Rely on optimal thermal insulation all around.

EQUIPPED FOR ALL TEMPERATURES:

- **Roof insulation:** U_{max} value from 0.15 to 0.16
- **Wall insulation:** U_{max} value from 0.13 to 0.20
- **Floor insulation:** U_{max} value from 0.13 to 0.14
- **Window insulation:** U_g value of 0.7
- **Door insulation:** U_d value from 0.87 to 1.8
- **Insulation options:** mineral wool, PU (polyurethane), PIR (polyisocyanurate) or rock wool

U_{max} value = maximum heat transfer coefficient in W/m²K
U_g value = heat transfer coefficient of the pane package in W/m²K
U_d value = heat transfer coefficient of the door in W/m²K

CONTAINEX EXTRA

Energy-efficient construction and a pleasant indoor environment

You want the best support. We are there for you.

Advice & service

Customer and service orientation are the main focus at CONTAINEX an Austrian family-owned company. We are happy to help!

- Decades of experience
- Advice and planning on site and in your native language
- Long-term supply of spare parts
- Various finance options
- Buy back guarantee for CONTAINEX cabins and containers

Delivery & installation

Our flexible space modules are delivered pre-assembled and ready for immediate installation.

- Delivery with open truck
- Reusable transport protection film
- Simplified assembly due to double locator plates

Delivery assembled

Top quality new and used

Quality is very important to us. That is why our portable and sanitary cabins are produced in our own European production plants.

- Our own European certified production plants
- State-of-the-art and environmentally-friendly manufacturing techniques
- Use of high-quality materials

TOP USED CONTAINEX

In addition to our newly produced cabins and containers, we also offer used cabins, containers and modular buildings. "TOP USED" identifies high-quality used CONTAINEX cabins and containers and guarantees defined quality and testing standards.

TIP

Did you know that we offer a buy-back guarantee* for all modular buildings as well as individual cabins and containers purchased from us?

We are convinced of the high quality and sustainability of our products. That is why you benefit from our buy-back guarantee* for every CONTAINEX cabin or container purchased new or used. A cost-effective exchange of your old cabin or container for a brand new one is also possible.

*The buy-back guarantee refers to reusable standard office containers, sanitary cabins and storage containers in the originally delivered specification, limited to 10 years from the date of purchase. The number of cabins and/or containers per type and calendar year is limited to 20. The seller covers the costs of dismantling and transport to the return depot. Deviations from these points are possible subject to separate, written agreements. This offer is valid in the European Union, Switzerland, Norway and the United Kingdom.

BUY-BACK guarantee

Environmental protection – made in Europe

GREEN technology CONTAINEX

We place particular emphasis on compliance with strict environmental and quality standards. These are summarised in our CONTAINEX GREEN technology certificate.

CONTAINEX GREEN TECHNOLOGY STANDS FOR:

- **Energy efficient and eco-friendly:** We only produce in our own certified production plants in Europe.
- **CO_2 reduction:** We place great emphasis on reducing CO_2 emissions as well as pollutants during production, transport and ongoing container/cabin use.
- **Recycling:** We use materials that can be recycled.
- **Audits:** We ensure that environmental audits and quality controls are continuously carried out in our production plants.
- **Sustainability:** Our cabins are extremely durable – because quality comes before quantity.

Convince yourself of our high standards. We are happy to help you.

Further information about the environmental and quality measures taken by CONTAINEX can be found in the current SHEQ-report (Safety/Security-Health-Environment-Quality). You can request this from your CONTAINEX sales manager.

You have high expectations. We want to exceed them.

Key Accounts

The potential uses of our space modules are almost unlimited. Whether for a nursery group, classroom, common room, sales room, project office, club house or changing room: after more than 40 years in this industry, we know how to inspire our customers with well-designed solutions.

WE LOOK FORWARD TO NEW CHALLENGES.
