CONTAINEX

Electricity from solar power: new photovoltaic module

Photovoltaic module

YOUR ADVANTAGES:

- High power generation thanks to the latest PV technology and optimised design
- Compatible with all 20' CONTAINEX portable cabins and sanitary cabins
- Analysis and monitoring via app (optional)

Technical data	
Dimensions	6,055 x 2,435 x 260 mm (length x width x height)
Output	2.67 kWp (6 nos. PV modules of 445 Wp each)
Electrical connection*	CEE external connection 32A / 400 V CEE external connection 32A / 230 V** (input and output)
Conformity of inverter	EN 50549-1:2019, VDE-AR-N 4105:2018, VFR2019, IEC/EN 62109-1/-2, IEC/EN 61000-6-1/-2/-3/-4, IEC/EN 61000-3-2/-3
Frequency	50 Hz
Snow load	250 kg/m²
Storage	Stackable up to 8 high

* The customer / operator must check compliance with the regulations of the respective energy supply company. Electrical testing and commissioning may only be carried out by authorised specialist personnel. Retrofit KIT for zero-feed operation optionally available.

** Specific for GB

Cost-efficient and CO_2-saving

- **Interconnectable**
- **Loading with crane or forklift**
- **Low transport costs – up to 16 pcs per truck**
