

Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

6.1 Survey date

For example, 3/11/2023

20/03/2024

6.2 Survey constraints

For example, access issues, weather, or seasonal constraints.

Weather conditions were considered suitable at the time of survey. As the walkover survey was undertaken in early March when most plants have senesced or in a limited vegetative state, the timing of the survey was sub-optimal, however due to the habitat types found and the experience of the surveyors it is considered that this is not a significant limitation to the findings of this report.
