This message originated from outside your organization

Hi Polly,

We haven't started importing topsoil yet.

All we can do is ask that you are accepting of the British Sugar topsoil in principle, which you are. Once it's placed, we will carry out the validation testing using GeoMatters who have provided all the other remediation reports. NHBC have asked for this also.

I would imagine we will start placing topsoil in the next 2-3 months and so we will keep all delivery tickets and validation testing to formally discharge this condition.

Regards,

Luke Boekestyn BSc (Hons)
