EXAMPLES SHOWN HERE

C0241 - Burger King
C0241-BF01
Banner Frame Base Bracket
HD Galvanised Finish

OPTION A: Free Standing Banner Frame Sign with centre block (Frame & Banner)

Frame fully constructed from painted aluminium (black) and banner tightening system, via crank (hidden inside each leg). Banner to extend into legs and be held taught around each crank pole. Each leg will have a hinged door, to allow access to banner, when changing the designs etc. The middle of the frame will be a decorative aluminium block, with fret-cut BK symbols (see above) to protect the banner from strong winds and also to stand in place of a banner, when one isn't availible at that time, rather than just sat as an unsightly empty frame. Non-illuminated.
