Description of Proposed Works

Please describe the proposals to alter, extend or demolish the listed building(s)

Installation of EV charger to the property. Located on the main road adjacent to the double garage. Requires armoured cable to be trenched from the main front door of the property to the north-east boundary wall adjacent to the double garage on the property. The charger needs to be mounted n the front of the property due to the location of the meter (front door) being too far from the rear entrance. The charger will be untethered and slim profile making it very discreet. As the property boundary reseeds from the high street at the double garage the charger will also be tucked away and not be front facing to the road.
