I give six weeks' notice that I intend to carry out the work that I have described below to tree(s) that are not covered by a Tree Preservation Order but situated within a

Conservation Area. Please give the name of the Conservation Area here: - .....

Please draw a sketch plan to show the location of the tree(s), either on the back of this form or on a separate sheet, then tell us...

Species of Tree	Tree ref. number or position on site	Details of the work you propose	Why you think this work is necessary	Proposed replacement tree(s)*
Horse Chestnut		Removal of tree	Tree is uprooted and only supported by a concrete fence post. It is at risk of falling on to both the corner of our shed and the neighbour's summer house and garden	Not sure. Will advise once have had time to think about options. Perhaps a holly.

(Separate sheets can be attached if more room is needed)

Please note that as agreed on your visit we have had the tree removed. We were unable to have the stump ground out due to the limited access. We are therefore not sure exactly how soon to consider a replacement as we don't want any new tree to be affected by the mould/fungi in the stump.

* If you want to cut down a tree we will usually require you to replace it. Normally we will ask you to plant a young tree (at least 1.5 metres high) of the same species that you have cut down, as near to where the original tree was located as is practicable. Sometimes a comparable species may be allowed instead of the same species. Please give details of the tree(s) you would like to plant as a replacement.
