N.G.R: 52450/32270

The development comprising 42 x 2m x76mm steel tubes constructed in an "A" frame arrangement as per the included diagram WL300467. It is intended that a combination of 0.3 and 0.6m dish aerials up to a combined diam of 3.5m. will be mounted on the tubes as service requirement arises.
Small equipment modules will be mounted at the rear of the mounting as indicated on WL300467.
The installation will be mounted on the roof of the building.
Along with the fee I have included a map with the exchange outlined in red

The apparatus is required to provide outstanding service commitments and we therefore wish to install this equipment as soon as possible. Your early comments regarding this submission would therefore be greatly appreciated. In accordance with the terms of the GDO, if we have not received any response to this application within the statutory 28 days of its receipt, we intend to proceed with the development as planned.

Yours faithfully

John Harris
