Dear Sir/Madam,

Further to our conversation on the 17th July 2003, you asked for permission to come on to the new road being constructed at Barge Close.

We don't have any objections to this and it's my understanding that a right of way already exists for your house.

However if you construct a new dwelling in your garden, for example, then a contribution to the Management Company would be required.

Once the management company is formed we will contact you again with the costs of any contribution.

Hoping this will help you.

Yours faithfully,
